

Dear FCC,

On net neutrality...

I strongly urge your enterprise, the FCC, to maintain, uphold, and enhance internet net neutrality.

Enabling Comcast, AT&T, Verizon, and other such players to control and/or manage access to internet content is unAmerican, and an affront to life, liberty, and the pursuit of happiness. unAmerican.

Please do not let Comcast, AT&T, Verizon, and other such players to hobble acts of freedom that Americans dearly cherish.

Thank you for your consideration.

Respectfully yours,
charles chesney
